

CHILD CARES AND PRESCHOOLS MICHIGAN

VACCINES REQUIRED FOR CHILD CARE AND PRESCHOOL IN MICHIGAN

Whenever infants and children are brought into group settings, there is a chance for diseases to spread. Children must follow state vaccine laws in order to attend child care and preschool. These laws are the minimum standard for preventing disease outbreaks in group settings. The best way to protect the children in your care from other serious diseases is to promote the recommended vaccination schedule at www.cdc.gov/vaccines. Encourage parents to follow CDC's recommended schedule; by doing so, child care and preschool requirements will be met.

These rules apply to children who are the above ages upon entry into child care or preschool. During disease outbreaks, incompletely vaccinated children may be excluded from child care and preschool. Parents and guardians choosing to decline vaccines must obtain a certified non-medical waiver from a local health department. Read more about waivers at www.michigan.gov/immunize.

*If the child has not received these vaccines, documented immunity is required. All doses of vaccines must be valid (correct spacing and ages) for child care and preschool entry purposes.
