Dear Tiger Families,

We are coming to the close of week 9 of distance learning with only 4 weeks to go! There are some important pieces to tonight's update regarding the 20/21 school year. If you would like to discuss any of them further, do not hesitate to reach out to me. Please see the updates below.

### **SUMMER DISTANCE LEARNING PROGRAM**

The summer program will consist of reading and math support provided through distance learning. It will require participation in live Zoom meetings, viewing recorded lessons, and completion of work. The range of support and activities will be between 30-90 minutes a day Monday through Thursday for 5 weeks. Spaces will be filled on a first come first serve basis and are limited. If you are interested in having your child participate, please complete the registration form below. If you have questions, please contact the admin team.

### **YOUR VOICE MATTERS**

Thank you to everyone that completed the survey from last week. The feedback we have received has been fantastic! Thank you for your honesty as it helps us plan. I would like to address some of the priorities that families listed in their responses and how we are working on addressing those.

1. Safety and Health Protocols for the School:
  - a. We have already been seeking quotes on personal protection equipment (PPE) such as masks, thermometers, and hand sanitizer stations. Additionally, we are receiving quotes on sanitizing the building from companies with specific cleaning solutions for COVID 19, as well as signs and other items to ensure everyone is kept as safe as possible.
  - b. Procedures are already being developed to plan for shared space including students being physically distanced in classrooms, hallways, lunch, outside activities, arrival and dismissal.
  - c. Classroom sizes on physical attendance days would be reduced to accommodate physical distancing.
2. Scheduling of Students:
  - a. If we do move forward with a blended learning format, therefore a split schedule of section A and Section B for each classroom, our plan is to send out a schedule request form. Our initial plan would be to have all siblings in attendance on the same days, however some families with more children may want and be able to have them on different days thus being able to work with them better at home. We would do our very best to accommodate all requests.
  - b. While we have not determined the set schedule yet, the plan for the Monday/Tuesday or Thursday/Friday grouping of students offered the opportunity for us to have the buildings fully sanitized in between groups.

This sanitizing would be more than the daily cleaning and include all furniture and materials in the classroom as well.

3. Distance Learning at Home:

A continual concern we have received about distance learning is about parents being overwhelmed with the amount of support they have to give at home. We hear you!

- a. We have already purchased licensing to add a component to our program that will eliminate your child needing to login to more than one platform. This platform is called Classlink. This program will also organize their distance learning so that the support they need from you is minimal for lower elementary and almost none for our older students.
- b. We have also been researching and discussing a blended learning model for education called the “flipped” classroom. In this model for learning, the teacher records most of their lessons and those videos are what the main responsibility is at home. Students watch the lessons and have a short response to complete which enables their full engagement within the learning process. The bulk of the actual practice from the video lessons takes place at school, allowing the teacher and support staff to properly assist students in understanding and complete the work, whereas parents are ensuring that students have viewed and responded to the lessons. In this model, it keeps the heavy lift of the teaching and learning at school and not at home.

4. Access to Technology:

- a. We have already taken necessary steps to move our school to a 1:1 technology school for the fall. This means that each student would be issued a technology device to use for school purposes. Students would receive the device at the beginning of the year and return it at the end of the year. Kindergarten students would receive either an iPad or tablet while students in 1st-8th grade would receive a Chromebook or laptop. This would help to ensure that all of our students have access to a dedicated piece of technology to support distance learning while at home.
- b. Students and families would be responsible to bring the device to and from school on days they are in attendance to ensure students are not sharing devices.

5. Tipton Virtual Academy Option:

- a. We have been working on being able to offer a fully virtual school option to families as we realize that some may not be comfortable physically sending their students to school. This option may also be good for one of your students while the blended learning option may be better for your other students. The great part of this option is that all of our virtual students will remain Tipton students and as such be able to participate in all Tipton events.
- b. When we send out the request for schedules for the fall, this will be an option you can select. This option will look different than the distance learning you are currently participating in, as well as the blended learning. We will have details coming soon for this option.

While we are working daily on planning for all of these possibilities, we agree with you that we would love to be in school everyday. The safety and health of our students is our main

priority, so we will work through all of the pieces in order to ensure we meet those needs first and everything else will follow.

If you didn't complete the survey last week, please do so below. We really would love to have feedback and hear from all of our families.

### **BEFORE AND AFTER SCHOOL CARE**

As we shared with you two weeks ago, we are moving forward with a change in program for before and after school care. While we had no concerns about the programming that Champions offered, we were very concerned about the price and the challenges that families expressed to us with the cost. We began discussions with Champions last summer and they continued through this spring. Unfortunately they were unable to lower their cost at this time.

The new program we are moving forward with has a \$10 registration fee. This is much more reasonable to consider for our families. We are taking steps to change the building license over and will provide more concrete details as we move forward.

Millions of the hotspots are scattered throughout the country; you can find hotspot locations at [wifi.xfinity.com](http://wifi.xfinity.com).

### TIME ON SCHOOLWORK

There have been many questions about how much time your child should be spending on schoolwork each day. This is new to all of us and as we work on meaningful teaching and learning we want it to be appropriate for all of our children. Here is the guide that we will be using at Tipton.

*GSRP:* Approximately 60 minutes per day.

*K-2<sup>nd</sup> Grade:* Approximately 90 minutes per day including all subjects. With an additional 15-30 minutes if needing additional services in MTSS, Special Education, or ELL.

*3<sup>rd</sup>-5<sup>th</sup> Grade:* Approximately 120 minutes per day including all subjects. With an additional 15-30 minutes if needing additional services in MTSS, Special Education, or ELL.

*6<sup>th</sup>-8<sup>th</sup> Grade:* *Approximately 150 minutes per day with 30 minutes per subject for 5 subjects.*

With an additional 15-30 minutes if needing additional services in MTSS, Special Education, or ELL.

Please remember, this is our guide for parents and teachers. Some days may be a little more while other days may be a little less, but this information will help all of us to plan our days.
